

## **BP** BRUIN PROFESSIONALS

Dear Bruin Professionals Family,

The last few months of Safer at Home has been tough on our spirits, our minds, our health and our wallets. And then two weeks ago, George Floyd was killed, setting off protests, anger and outrage across the country. Sadly, George Floyd and Ahmaud Arbery are just two names out of the many unnecessary deaths that happen because of the racial disparity and inequality in our country.

Two of our organization's three "Cs"- Camaraderie and Community are more important than ever. Together we can help each other get through these difficult times. Together we can start learning. Together we can start the healing process. Together we can make positive changes.

If you have ideas or thoughts on how the BP community can make positive changes, please reach out to us.
